Fort Bend County LID #15

Monthly Report

Summary:

Since the last meeting date LMS continues to make levee and outfall structure rounds. We are also making progress taking care of active issues and moving them to the archived tab on our website for board review. Listed below are some of the items we have been addressing.

Levee:

- Trash and debris cleared from district.
- Made several gate adjustments throughout the district.
- Hog damage on levee throughout the district.

Ditches/Detention:

- Trash and debris throughout all drainage facilities.
- Hog fencing project pricing, Costello to present.

Outfalls/Pump Station:

- Cleared flap gates of trash and debris during recent storms.
- Generator PM is complete.
 - No issues to report.

Emergency Operations Discussion:

Working with RMS on LID 19's automated pump station and will bring presentation to LID 15.

<u>River update:</u> River continues to stay in Action Stage. LMS continues to pump as needed to keep internal water levels as low as possible in the district to free as much storage as possible. River will continue to stay in the upper 30s for a least 2-3 more weeks while they continue upstream releases of tributaries into the Brazos River. Currently at 37.5, highest crest 39.8.
